

TASC FORCE

TEAM ACTION TO SUPPORT COMMUNITIES

Our company recognized Kim Hall of BJ's Natomas with the 2008 Server of the Year award, and it appears that there's much more to tell about this outstanding team member. As DM Clif Limary reports, "Kim is more involved with this community than anyone else I know." Kim contacted our foundation a couple of months ago about helping to support her goal of raising money in memory of 7 year-old Joseph Quant, a young boy who passed away from a brain tumor. She was putting together a team to participate in a walkathon called Walk 'n Rock for kids. The BJ's Foundation was honored to sponsor the 40 walkers from BJ's who took part in the successful event.

As Kim writes, "We all got there around 7:30 a.m. for the 5K event. I was very proud of all the team members who are always ready and willing to help. We all started the walk together, but as soon as it got going, some decided to run. Nick Walker, Solomon Dove, Brittney Alcoriza and Janess Collins were among the many runners who had to get right to work after the walk."

The walk was preceded by a very successful all-day fundraiser in the restaurant in memory of this young boy. His mother Nicole spent the day in the restaurant greeting and thanking all the guests who came in to support the cause.

Thanks to Kim, Clif and Nick for sharing this wonderful story and for the photos of your enthusiastic TASC Force team.
