

# TASC FORCE

TEAM ACTION TO SUPPORT COMMUNITIES

Thanks to Mike Bierman, Senior Manager of BJ's in Westminster, Colorado, for this week's TASC Force story:

"We have done several events with Habitat for Humanity of Metro Denver and this time they contacted us about their 30th Anniversary Event Banquet and new building Grand Opening. We helped serve pizza and root beer to over 400 people from the local community including volunteers, community leaders, an elementary school class, and workers from AmeriCorps. Everyone loved the pizza and root beer, and all were ecstatic to learn about our BJ's concept and brand. The team members and my entire management team all did an unbelievable job and were excited to help out the community and this great organization.

On a side story, we had about 12 pizzas left and my team members, Katie Fruetel and Jen Ries took it upon themselves to drive to the local homeless shelter and deliver the pizzas to the homeless. What makes this story even better is that the weather was a drizzly freezing rain and the line to the shelter was extremely long and most did not have a chance to sleep in a warm bed or have a warm meal for the night. What these two team members did was an unbelievable act of kindness and should be commended.

It was our pleasure to again represent BJ's, the TASC Force program, and BJ's Westminster on another successful TASC Force Event.

The Team Members involved were: Katie Fruetel, Mike Fleischer, Mike Adams, Kelli Green, Kaitlin Broumpton, Megan Rathmann, Megan Jorgensen, Amanda Krolopp, Matt Cox, Brandon McClelland."

Thank you Mike for this wonderful story of community support and unselfish acts of kindness.
